

Dear Professional,

We all are conscious of the fact that the current pandemic of COVID-19 has led to huge distress in financial markets, at the global level. This is bound to have wide ranging impact on the value of assets in various sectors of the market economy.

In this regard, you are humbly requested to kindly prepare a Study Report on the "Impact of COVID-19 on Valuations".

The write-up may cover certain important aspects such as effect on value of the assets, hurdles in conducting valuation activity, international norms for valuation under such conditions, current practice in other jurisdictions, long term effect on valuation because of current pandemic, suggestions in this regard, etc.

You are requested to kindly submit the same latest by 25th August 2020, EOD addressing to Dr. Prasant Sarangi, CEO (Designate), ICSI RVO at rvo@icsi.edu<mailto:rvo@icsi.edu> .

Looking forward to an active participation and contribution by members of ICSI RVO!!!
